GRIMM GLUE

GLUEY X CINDERELLA 99

Glue • Skunk • Cedarwood • Sandlewood

Brothers
Grimm
seeds®

50/50 HYBRID

FEMALE PHOTOPERIOD SEEDS

POTENCY: LIGHT / MEDIUM / **HEAVY** / **EXTREME**

**CREATED BY
MRSOUL**

EFFECTS AND FLAVORS:

Grimm Glue is known for its citrusy, gluey, herbal smells from pine to cedarwood and sandalwood, with hints of fuel/gas.

Grimm Glue may reach over 30% THC. Overall it is a very potent strain that is excellent for making concentrates and crushing yields. Most find it high-flying and productive with a body buzz to boot.

GROWING NOTES/ MORPHOLOGY:

Grow seedlings for 8 weeks in VEG phase for best results.

Grimm Glue plants are branchy and yield dense buds. Expect chunky dense buds with superb flower/leaf ratio, and extreme resin production.

A net trellis provides perfect support for these branchy plants. Grow them in their natural shape, or top them for a multiheaded bush.

ORIGIN STORY:

After a year of testing a clone called “Baby Gluey,” we found excellent evidence that she would be exceptional for breeding; she would not herm under any stress, her yields were good, and the resin production was off the charts.

SEED INFO

LINEAGE:

Gluey x Cinderella 99

FLOWERING TIME:

60-65 Days

INDOOR/OUTDOOR:

Both

TERPENES:

Myrcene, Caryophyllene, Humulene,
Nerolidol, Linalool, among others

CANNABINOID TYPES:

THC:

THCV:

CBD:

CBG:

All seeds are HLV-free with lab certification to ensure clean seed stock.

REVIEWS

“Grimm Glue was gassy, with a hint of citrus, and a little pine. Very much akin to how I remember Elmer’s Glue from Elementary School. Faint at first but more pungent after being put in the grinder. It had hints of spice, floral, but gassy straight sativa off the bat, hyper-focus, alert, and great hand-eye coordination. Slowly turns into a very sticky feeling after an hour or so. Steadily more sedentary as the night wore on. Super smooth inhale, smooth exhale, and really nice high.”

~accomplished-Ward-50

“This Grimm Glue from brothers Grimm seeds finally got me in the 30% club. Came back at 32% THC with 2.8% Terps. Ol girl smokes so pure, burns white and just has amazing bag appeal. Great for arthritis, inflammation, pain, and headaches for me.” ~Tim Okie

“I snagged some yesterday, pleasantly surprised at how nice it smoked and the effects. Well worth it and would definitely get it again.”

~motorcityjax

“Grimm Glue has that nice gluey, pine smell.” ~Jbudz

“Love the Grimm Glue, it’s absolutely fire, and does fully sun with no cover. It’s a winner” ~Jonathan Carrel

“I’m loving the structure, shape, and smell of the Grimm Glue.” ~JohnnyAppleSeed

“Great strain for fast flowering, dense buds, staking and heavy yield - legacy grower and perfect homegrower option. Thrives in SOG.” ~MrTea420

“Grimm Glue is my favorite washer.”
~Matt Miles
